WORK EXPERIENCE

Financial Analyst & Financial Operations Manager (Pre-Graduation) | [Al Omran Solutions for Building Materials](#)

Feb 2026 - May 2026Hafar Al-Batin, Saudi Arabia

- Designed and implemented departmental KPIs and operational performance dashboards that directly aligned with strategic objectives, resulting in a 20% increase in target attainment visibility for senior leadership.
- Spearheaded deep-dive financial and operational data analysis to develop specialized ad-hoc reports, identifying \$150K+ in cost-saving opportunities and performance gaps across 3 business units.
- Served as the primary liaison for business process standardization, updating SOPs across 3 departments and ensuring full compliance with ZATCA and organizational mandates.
- Led Root Cause Analysis (RCA) for operational variances using Lean methodologies, reducing recurring reporting errors by 20% and improving month-end close efficiency by 3 days.
- Mentored and directed a team of 3 junior analysts, delegating tasks and monitoring workflow to ensure 100% on-time delivery of critical financial reports.

Retail Sales Associate - Performance & Financial Operations (Pre-Graduation) | [Al Omran Solutions for Building Materials](#)

Jul 2022 - Feb 2026Hafar Al-Batin, Saudi Arabia

- Drove retail sales performance and consistently exceeded commercial targets by actively engaging with customers and providing tailored solutions that increased average transaction value.
- Executed and reconciled over 200 daily Point-of-Sale (POS) transactions, ensuring 100% accuracy in cash handling and settlement processes across all shifts.
- Coordinated bank reconciliation and settlement processes to ensure financial integrity across retail operations, resolving discrepancies within 24 hours.
- Monitored daily sales trends and managed inventory flow for 500+ SKUs utilizing ERP systems, contributing to a 15% improvement in inventory turnover and reduced stockouts.

PROJECTS

ESG Impact Analysis (Graduation Project)

Conducted quantitative valuation research for 50+ Saudi companies using regression models and industry benchmarking. Built comprehensive financial models to measure the ROI of sustainability investments, delivering actionable insights through interactive Power BI dashboards aligned with Saudi Vision 2030.

Integrated Financial Planning System

Developed a robust financial planning system from scratch using Excel and VBA, processing multi-scenario valuation analyses for strategic decision-making. Automated KPI tracking for capital allocation decisions exceeding \$2M, reducing reporting turnaround by 60% and improving data accuracy.

Multi-Branch Sales Dashboard

Developed a Power BI dashboard using Power Query and DAX for real-time sales tracking across 10+ branches. Identified underperforming units through variance analysis and trend detection, resulting in targeted interventions that drove an 18% uplift in sales performance.
